Deborah Colton Gallery presents Grayson Chandler: "Cocoon" opening reception

 0  0 

Deborah Colton Gallery present "Cocoon," featuring a new series of work by Houston artist Grayson Chandler. In his latest solo installment, Chandler explores concepts of metamorphosis, emergence, and notions of self, in relation to the human psyche. Drawing from aspects of these concepts, this body of work attempts to transcend a sense of duality - the perception of self and other as separate - instead instilling in viewers a state of awareness that begins and ends with the self.

Carapace, 2019, Oil on Wood Panel, 24 x 20 inches *Photo by Grayson Chandler*

Following the opening reception, the exhibit will be on display until June 15.
