Deborah Colton Gallery is an international contemporary arts gallery based in Houston, Texas that works with artists, art institutions and clients worldwide. The Gallery has been curating and sponsoring exhibitions in Houston and throughout the United States since 2000, and prior to that did projects in Asia. In the past five years the gallery has established the "Houston Foundations" exhibitions and programming that places an emphasis on Houston artists and the history of the City's art scene starting in the 70's. These artists have made a major contribution to Houston becoming the major art city that it is today. The gallery also works with young artists and launches their local, national, and international artistic careers, including this summer introducing an "Artist in Residency" program.
