

OLEG DOU

ARTIST

“Oleg Dou’s works start with a bare beautiful “naked” face with no makeup. Taking often months to create each work, these faces take on a different presenceto a world beyond what we have known, to reveal what is inside us in often the deepest depths of our souls. Sometimes revealing our inner most fears and sadness, sometimes looking into the future to centuries beyond us, his work is moving and compelling and touches all viewers deeply. In our often superficial world where outer beauty and masking our true feelings is the custom, Oleg Dou’s creations are original, refreshing and evolved. To connect with our inner self and the world around us often produces the positive effect of a desire to change.”

—Deborah M. Colton
