Oleg Dou

A MODERN INTERPRETATION OF AN OLD PRACTICE

The son of a mother who was a painter and a father who was a fashion designer, Russian-born artist, Oleg Dou has become one of the most promising artists of his generation in the art world. Oleg Dou's work has been featured throughout the United States, Europe and Asia. In Houston, Texas, Oleg Dou was one of the featured artists in the FotoFest 2012 Biennale with his work on the cover of the Fotofest catalogue and has also been exhibited in Dallas, Aspen and Houston with Deborah Colton Gallery. Full of a keen sense of intuition, truth and passion, Oleg Dou has been listed as one of the top 3 artists under 30 years old worldwide in relation to his auction prices by Artprice which is one of the leaders in art market information.

"Oleg Dou's works start with a bare beautiful "naked" face with no makeup. Taking often months to create each work, these faces take on a different presenceto a world beyond what we have known, to reveal what is inside us in often the deepest depths of our souls.

Sometimes revealing our inner most fears and sadness, sometimes looking into the future to centuries beyond us, his work is moving and compelling and touches all viewers deeply. In our often superficial world, where outer beauty and masking our true feelings is the custom, Oleg Dou's creations are original, refreshing and evolved. To connect with our inner self and the world around us often produces the positive effect of a desire to change" Deborah M. Colton.
